# Welcome...

*My wife Cindy and I would like to extend to you a personal invitation to our herd reduction sale. We are using the McAlester Union Stockyards, McAlester, OK to house the sale on Saturday, September 7 at 1:00 P.M., and would love to see you there.*

*We would also like to welcome our fellow breeder Kurt and Joann Hamburger of H & H Simmental Farms, Weatherford, OK, who have consigned some of their cattle to our sale. H & H has been in the Simmental business for many years, has high quality cattle, and has consigned exceptional, quality individuals to our sale.*

*As we prepared for our production/reduction sale, I stopped and looked back at where Updyke Simmentals got started. With a background of teaching Vocational Agriculture, then returning to Oklahoma State University to pursue my master and doctorate degrees in Agriculture Education, and with my passion for calf roping, it was only natural that I became involved with the cattle industry. So, in 1982 I purchased our first Simmental cattle. We started with nine traditional Simmental cows with the intentions of raising show heifers for our two children, Christie (12) and Greg (7). At that same time Cindy and I were both in education, Cindy was teaching in elementary school and I was Dean of Agriculture at Connors State College.*

*When Christie and Greg finished high school in the early 90s, our focus for our cattle evolved, and we concentrated on raising functional, performance cattle. We grew our herd by keeping our choice replacement heifers and using quality bulls through artificial insemination and embryo implants using top AI sires. Our end goal has been to raise EPDs to improve our genetics, while maintaining sound, visually correct sires and dams. We have always sent our culls to market and keep only those quality individuals that would grow and improve our herd. And on that note, we make every effort to sell only quality cattle that, if space allowed, we would keep in our herd.*

*Throughout this journey we have enjoyed our partnership with Connors State College as they tested our bulls over the years. It was always a pleasure to host the CSC Judging Teams as they prepared for contests.*

*All of our cow/calves in this sale were homegrown, and I feel they will be a good fit for any registered or commercial operation. You will find that they are basically a body condition score of 6 or higher. They have been on quality, though sometimes short, grass pastures. In my opinion they are in optimum condition to calve. The spring cows are still in good condition considering they have been nursing calves since late February or early March. The calves have been on a creep feeder since June. The yearling heifers have been on a feeder until I started feeding them by hand the middle of June.*

*I have made every effort to promote the best breed of all - SIMMENTAL. It has been a privilege and honor to serve as a trustee on the American Simmental Association Board for the South Central Region since 2015.*

*In closing, I would like to express a heart felt thank you to all of our friends and neighbors who have helped us prepare for this sale. We are a small operation with a big heart, it's just US - Updyke Simmentals.*

**GARY & CINDY UPDYKE**  
CHECOTAH, OKLAHOMA
